

Why use Corporate Guaranty Services

We believe that your financial situation can't be summed up by a credit score!

We understand your low score may be a result of foreclosure, job loss, fewer hours or even identity theft.

And for this reason your credit score may not paint an accurate, current financial picture of you or your ability to pay rent.

Simple Agreements

It's a new day for your Family

We don't care about your credit score, it's all about your ability to afford your rent, and pay it on time!

So if you had a credit problem in the past why not put it behind you and start a new beginning.

Let us guarantee your new lease and help you start all over again building good credit.

Renters

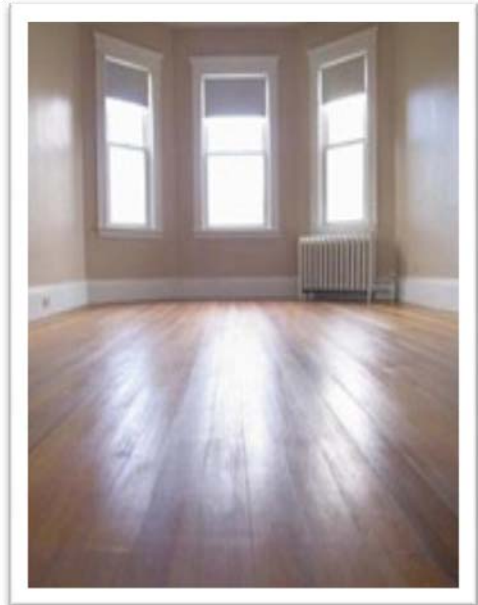

Is your credit score keeping you out of an Apartment or a real nice home you can afford?

Corporate Guaranty can help! We don't care about your credit score. We look at your current financial situation, your income employment, current debt, and other factors that would affect your ability to pay rent.

In most cases, we can guarantee your lease and you can live where you want to live.

HOW IT WORKS

After Corporate Guaranty approves your application, we provide a guarantee to the Property Manager for your yearly rent. After a year, your lease is re-evaluated by the landlord and the rental payment history is reviewed. If your payment history is good your Guarantor is released. If there were payment issues the Guarantor stays on and continues charging a fee for their service. Applicants also pay a onetime non-refundable processing fee to Corporate Guaranty when signing up for the service.

Get approved to move
into the apartment or
residence of your choice

Application Fees are fully refundable if you do not qualify or cannot afford the move.
